ALLIES CAPTURE STRONGHOLDS IN ITALY

Meandering Along the Main Stem By WASH FAYETTE

"Watch the watch springs in the spring" is the title of this little ditty.

I discovered this, once more, when I walked into a local watch repair shop with a watch that had suddenly developed intestinal disturbance.

"Nothing, only the main spring is broken," said George P., as he kindly dug up an Ingersoll for me to carry during the uncertain interval between break and repair. I did not even ask him when the watch would be ready. I was afraid to, because I knew there was plenty of others ahead.

"Electrical storms like that of yesterday," continued George, sometimes play havoc with main springs; then they just seem to break more frequently in the spring than any other time—may-be because it is spring," he punned.

This spring seems to have brought an unusually large number of mainspring ailments, according to local watch repairmen in general.

Incidentally the local repairmen are receiving watches from "the boys" throughout the world. It seems that when a watch goes wrong, just about the closest and most dependable place the boys can find to have repairs made to their watches is in the old home town, so they pack them and mail them here, where they are given priority, and shipped back as soon as repairs can be made.

I guess you will all agree with me that the members of Boy Scout Troop No. 170, of which James W. Yates is the scoutmaster, did their good deed in a big way, on "Mother's Day".

Some time ago the troop conducted a waste paper drive. The first one netted them \$37.34 and the second \$20.17, and the troop used part of this fund to purchase corsages of beautiful flowers for six Gold Star mothers in and near the city.

Sunday morning two scouts in uniform, accompanied by Scoutmaster Yates, delivered the six corsages, each box being labeled, "To a Courageous Mother".

It was a pronounced surprise to the six mothers, all of whom expressed their deep appreciation upon receipt of the flowers, and it certainly was a beautiful thought on the part of the Scouts of Troop 170. I imagine Jim, the scoutmaster, had a very prominent part in the idea because some of Jim's relatives were in the German "blitz" in England.

The Gold Star mothers who received the corsages on Mother's Day are: Mrs. Frank Cooper, Paint Street; Mrs. Walter Fults, Washington Avenue; Mrs. Charles Stewardson, S. Fayette Street; Mrs. H. B. Twining, East Paint Street; Mrs. Luther E. Sexton, VanDeman Avenue and Mrs. J. E. Frost, R. F. D.

The first letter in response to the kindly deeds of the Scouts came from Mrs. Sexton, whose letter follows:

"Inasmuch as I do not know any of you boys personally, or your leader, this is the only way I know of thanking you for remembering me on 'Mother's Day'. It was such a fine gesture on your part and all day I kept thinking how much Bobbie would appreciate it if he knew someone was thinking of his mother on this day, as every day was Mother's Day to him."

MEN OVERSEAS WORRY ABOUT MORALS AT HOME

CLEVELAND, May 18.—(P)— Fighting men overseas are principally concerned over reports reaching them of loose morals at home, says Turner Catledge, staff correspondent of the New York Times.

Catledge, just returned from a five-month assignment which took him to England, Africa, Italy, Iran, Palestine, India and Burma, told an interviewer last night that "American men have great imaginations and, especially in the non-combat zones overseas, considerable time to think."

TWO BURN TO DEATH

VAN WERT, May 18.—(P)— Five-month-old Sarah Marie Hamrick and her brother Forest Eugene, three, were burned to death in a fire which destroyed their home at nearby Willshire Township. Their parents, Mr. and Mrs. Forrest Hamrick, were plowing when the tragedy occurred.

SALES TAX YIELD UP

COLUMBUS, May 18.—(P)—Prepaid sales tax receipts totaled \$1,232,270 for the week ending May 6, bringing the 1944 aggregate for that date to \$18,064,832. State Treasurer Don E. Ebright reported today. The corresponding 1943 totals were \$1,046,077 and \$17,930,223.

SOME OF SNARLS IN 'G. I. BILL' ARE NOW IRONED OUT

SUPPLIES DROPPED BY ALLIED PLANES FOR TITO'S FORCES

By JOHN TALBOT

(Representing the combined American and British Press) Distributed by the Associated Press.

MARSHAL TITO'S HEADQUARTERS IN YUGOSLAVIA MOUNTAINS—(Undated)— Standing on a windswept plain completely ringed by towering mountains, I spent the greater part of last night watching munitions and medical supplies for Yugoslavia's national army pouring down from the skies not 15 miles from German positions.

For about four hours a constant stream of giant transport planes flew over the mountains to drop nearly 25 tons of vitally needed supplies for the Partisans.

This was only one night's activity at only one of many dropping grounds throughout liberated Yugoslavia. At a neighboring locality, about 25 miles away, I was told another 15 tons were dropped.

All the planes which came to our dropping ground last night were flown by Allied pilots. Goods mostly were British, but this varies almost every night.

This service to Yugoslavia's army is governed entirely by their own requests. Whatever they need most urgently is brought to them if it is humanly possible.

A British major was in charge of the operations at the field where I was watching. Aiding him was a captain in the American air forces, guardsmen and some 50 Partisans.

In Washington, Representative Smith (D., Va.) proposed yesterday (Wednesday) that the House of Representatives investigate campaign expenditures and contributions to political campaigns by individuals, corporations or labor unions.

Such an inquiry, he said, might "open the eyes" of Attorney General (Please Turn To Page Two)

FLUID MILK SALE INCREASE APPROVED

Few Cases of 'Inspired Dumping' Conceded

CINCINNATI, May 18.—(P)— Increases of 2½ percent in fluid milk sales and 5 percent for dairy by-products, have been authorized by the War Food Administration for the remainder of May, Fred W. Issler, milk marketing agent, disclosed today.

The action, taken under food distribution order No. 79, affects all of Ohio, Huntington, W. V., Ashland, Ky., and Sharon and Farrell and nearby towns along the northwest tier of counties in Pennsylvania, Issler said.

Issler said there had been isolated instances of milk dumping in northern Ohio, but added "it's in no way general, and the few cases reported may have been inspired."

FOUR SITES ARE VIEWED FOR STATE FAIRGROUND

COLUMBUS, May 18.—(P)— Col. C. W. Goble, Ohio Selective Service director, said he would send an officer to Wilmington today to investigate the mass resignation of Clinton County's only draft board.

Goble reported he received a letter of resignation yesterday signed by all five members of the board, of which J. E. Orebough is chairman.

Resignation was in protest of a state Selective Service headquarters' order to postpone induction of a Wilmington bank teller, Goble said the letter stated. He said it was the first case where an entire board had quit.

The officer expressed confidence any difficulty could be worked out satisfactorily.

Nazi Invasion Defenses Mapped

LONDON, May 18.—(P)—Photographed bit by bit during the steady Allied aerial hammering of the invasion coast, the German west wall has been found to be a series of strong points embedded in concrete in a maze of minefields and barbed wire.

The reconnaissance photographs, showing the enemy fortifications

gun-by-gun and mile-by-mile, now have been assembled into a giant map against the forthcoming day of invasion, an attack that the controlled Vichy radio asserted last night may be expected "any moment now."

The map, which provides Gen. Dwight D. Eisenhower and his command details on the potential bat-

tlefields, shows defense installations in camouflaged concrete clusters in staggered lines back from the mined European coast.

The defense clusters all hide big guns. From some protrude long barrels of huge sunken batteries. From others rocket guns are set to fire toward the channel. Relying heavily upon camou-

flage, the Germans have placed virtually all the defense system underground and have used canvas extensively in an attempt to keep completed installations away from the prying eyes of Allied airmen. But the photographic eyes of Allied air forces have kept track of the digging step by step.

CASSINO FALLS AFTER 5 MONTHS FIERCE FIGHTING

Yanks Drive Germans Out Of Formia, Southern Anchor Of Main Hitler Line

By RICHARD McMURRAY

(By the Associated Press)

Cassino and Formia, two German strongpoints in central Italy, were captured today by Allied troops who were storming steadily ahead toward Rome on a violently erupting 25-mile front.

British troops captured Cassino, where the Nazis had repulsed Allied attacks for five bloody months. They virtually had encircled the city in conjunction with a Polish corps which stormed Hill 593, north-

WORSE FIGHTING AHEAD

WASHINGTON, May 18.—

(P)—Secretary of War Stimson aid today that the Allies in Italy now are beginning to come in contact with the outposts of the heavily fortified Adolf Hitler line and cautioned that the next step of the campaign will be "exceedingly difficult."

anchor of the Adolf Hitler and the Gustav line. The British had cut the Via Casilina two miles beyond the city on the way to Rome.

Formia, southern anchor of the Hitler line, fell to American troops in a five-mile advance. Both Cassino and Formia are 72 airline miles from Rome and around 40 miles from the southern edge of the Anzio beachhead, where the enemy said Allied troops were attacking. Cruisers pumped 3,000 shells into the Formia area before the Doughboys stormed in.

The old Benedictine Monastery on a mountain towering above Cassino was captured by the Poles but it was only a ruin. The Germans had turned it into a Fortress. A substantial part of the first German parachute division, the dogged Green Devils of the Cassino garrison, were wiped out in the considerable victory. Allied headquarters in Naples announced.

"The Gustav line has now ceased to exist," the communiqué said.

With air power to spare, U. S. heavy bombers ranged across the Adriatic from Italy and bombed Ploesti in Romania and Belgrade and Nis in Yugoslavia. All are rail centers. Ploesti is the center of Romanian oil refining.

Yanks Closing Trap

The American troops who chased the enemy from the crest of the slopes of Monte Ruazza last were reported within two miles of Itri—a road junction commanding the only route of retreat for the enemy troops in the Formia area as well as Gaeta. Itri is 65 airline miles from Rome and 35 miles from the Anzio beachhead.

As a result of this advance, the enemy was said to be confronted with two possibilities — either throwing in heavy reinforcements or a gamble of holding that key-point or fleeing northward along the Appian Way and abandoning the Gaeta point big guns which for weeks have sent shells whistling into the lower Garigliano valley.

Another 1,500 Nazis surrendered, making the total 4,500. The Anzio beachhead was quiet but the Germans said Allied artillery was intense.

Russians Hit Poland

Russian bombers started great fires and explosions in the White Russian capital of Minsk and bombed two old Polish centers. The Soviets said they killed 500 and captured 150 Germans around Stanislavow in the south.

The Finns said their port of Kainuu was bombed. Still the Russian armies were massing for the great and decisive summer offensive to be coordinated with Gen. Eisenhower's invasion of the west.

Continental storms kept bomber fleets in Britain grounded. Russia and Poland made halting steps toward rapprochement.

Pvt. Joseph F. Hollingsworth of Canton, O., told Colorado Springs, Colo., police he choked his wife to death in a Seattle Hotel in March. He even signed a confession saying he had hid her body in a trunk near Olympia, Wash. Imagine the surprise of authorities in Seattle when they found Mrs. Hollingsworth very much alive. Imagine her surprise, also, when she read in the papers, as above, of her "death" by her husband's hands. Chief I. B. Bruce of the Colorado Springs Police Department said Hollingsworth concocted the story because of domestic troubles.

TOLEDO FACES STRIKE

TOLEDO, May 18.—(P)—Approximately 400 municipal employees went on strike today in protest against the city's failure to grant \$15-a-month wage increases to workers receiving \$2,400 or less a year, according to John Jewhurst, service director.

A large part of Allen's route was across southern and eastern Germany where Allied bombings have not been as severe as in other parts. The remainder of the route to France was across the upper Rhineland where quick repairs may have been made.

Airfield in Burma Captured From Japs

Picture Still Grim for Chinese Defenders of Loyang But Yanks Spring Another Trap on Japs on New Guinea

By RICHARD C. BERGHOLZ

(By the Associated Press)

A spectacular jungle maneuver by Lt. Gen. Joseph Stilwell's American and Chinese soldiers has topped an important airfield from Japanese control, placed the main enemy base in north Burma under siege and narrowed the gap between converging Allies armies in Burma and China to less than 80 airline miles.

Southeast Asia Allied headquarters announced today Stilwell's

forces captured Myitkyina Airfield after a 20-day forced march and now are besieging Myitkyina City, terminus of the important Mandalay Railroad.

Allied Troops Land

Immediately after the airfield was secured, gliders and transport planes landed American engineers and Chinese troops. Brig. Gen. Frank Merrill's Marauders participated in the surprise stroke which "apparently caught the Japanese completely by surprise and only slight resistance was offered," the Allied communiqué said.

Fall of Myitkyina would threaten to collapse the entire Japanese position in northern Burma and remove an important obstacle in the campaign to link the new Ledo Road with the old Burma Road to China.

Eighty airline miles east, Chinese troops streaming west of the Salween River swept through several new positions in an apparent pincer movement on a Japan-held segment of the Burma Road. Chinese guerrillas captured Syinpan Pass.

The picture was still grim for Chinese defenders of Loyang, former Chinese capital in north-

SCOUT CAMPAIGN IS 'GOING GOOD' BUT UNFINISHED

No Definite Figures on Contributions Expected Before Next Week

The campaign launched Wednesday morning to raise funds for carrying on an expanded Boy Scout troop here during the coming year is "going very good," the county chairman and treasurer said, but they agreed the solicitation had been intended as a one-day effort, could not be completed before the end of the week.

W. F. Rettig, high school principal and county Scout chairman, said that while there were "about 30" at the take-off breakfast Thursday morning in the high school cafeteria, a number of the solicitors were unable to get there because of the press of other business.

Leonard Korn, the finance chairman of the campaign, delegated Earl Henderson to handle all the reports of the contributions which originally were to have been turned in to him.

Henderson said that a last-minute plan had been worked out at the breakfast for the solicitors to turn their contributions over to their captains who in turn would report to him. No check has been made yet, Henderson said, but he added scattered reports indicated the solicitors were meeting with a warm response.

Because the unusual wartime press of business, Henderson said, many of the solicitors had been unable to do more than leave their cards with prospective contributors. These, he explained, would be picked up later along with the money. He expressed the belief that it would be "a day or two anyway before any definite figures" are available.

General Biddle who recently said he had found no illegal action by the CIO Political Action committee.

And Representative Shafer (R., Mich.) introduced legislation to outlaw the organization of foremen's unions, saying it was prompted by a "disgraceful and unwarlike walkout" involving supervisory employees in the Detroit area.

The issue of Negro voting came up pointedly yesterday in South Carolina where the Democratic State Convention flatly rejected a request that the Progressive (Negro) party be allowed eight of the 18-man convention delegation.

Government and Coal

There's a new plan under way to assure home heat for this winter.

The War Production Board has approved a proposal that the government buy up vast supplies of soft coal to keep the mines rolling at high pitch all summer and have an adequate supply ready for homes this winter. The only question to be ironed out is the price schedules under which the Defense Supplies Corporation would make the purchases.

Outlook For Meat

The Bureau of Agricultural Economics predict the per capita meat supply will drop off 10 pounds for the last half of 1944. If the prediction is borne out, civilian supplies would be at the level of 1943 when nearly all meat was rationed. But the Bureau notes that prospects for other food supplies, in the next few months, are "relatively good."

Lend-Lease Extended

President Roosevelt has signed the third extension of the Lend-Lease Act—the biggest swap the world has known. His signature extends the aid program until June 30, 1945.

Treaty Tug-of-War

Senator Gillette (D., Iowa) says there's little chance that the Senate will approve a proposal to give the House joint responsibility with the Senate in the ratification of peace treaties. Such agreements now are subject to a two-thirds approval by the Senate and a move has been begun in the House to amend the constitution so as to provide for majority approval in the House and the Senate.

Citizens of Washington C. H. and Fayette County.**Parents and Delinquency**

Juvenile delinquency and the preliminary activities which lead to the serious phases of this problem, remain one of the most talked about situations in every community. This is especially true when there is a gathering of mothers or meetings of parent-teachers associations.

Efforts are being made by interested parents, and others, in many communities to solve this situation by providing facilities for proper amusement and recreation, including Washington C. H. At least two plans are being discussed by civic leaders and interested parents here in Washington C. H. to help on this problem and to do something about it before it gets out of hand here as in some other places.

It seems to be generally recognized, however, that the first responsibility for curbing juvenile delinquency rests with the parents, not on the public schools, city or county officials or welfare organizations. Some of these are sincerely trying to meet the problem of youthful misconduct by providing counter attractions that will lure young folks away from less wholesome amusement. But to parents, it must be apparent, their guidance and home management should offer sensible direction. Others can't be blamed if such responsibility is not assumed by parents when children follow the wrong path.

Here are a few suggestions. They do not cover the whole problem but we wonder how many parents truthfully can say they have endeavored to follow them.

Know your children's companions. If you move to a new neighborhood, meet the parents of the boys and girls with whom your children are playing.

Raise your children to respect the law. Teach them that the policeman is their friend.

Encourage your children to read good literature. Subscribe to wholesome magazines, and have them join the public library.

Teach boys and girls the true value of thrift. Have them start their own savings accounts and buy their own war stamps and bonds.

Help your children find hobbies, amusement and entertainment in the home. Encourage them to bring their friends to your house.

Meet your "teen-age" daughters' dates. Learn something of their background, character and associations.

Get acquainted with your children's teachers. Check with them frequently regarding your boys' and girls' attendance, attitude, and progress in school.

Join your local parent-teacher association. Attend meetings regularly and take an active part in the programs.

Whatever your religious faith, train your children to attend church services regularly. Set a good example by going with them as much as possible.

Today's Horoscope

If you have a birthday today, you are a person who is fond of taking a chance. You should curb this tendency, as it will bring you unhappiness and restlessness. You waste precious effort and energy in following that desire. You enjoy music and art; like children, and your home is very dear to you. Your financial condition will greatly improve. Novel business and intellectual activities promise well, but you should avoid unwise expenditure and go ahead. Born on this date a child will display much originality and talent and should be allowed a free hand in choice of profession. If he or she is given his choice, a fortunate career is indicated.

War and Living Standards

Impossible as it may seem, the American people have been living better and waging a war at the same time. In only a few things have they made what might be termed sacrifices in the interest of victory.

Because attention has centered on curtailment of gasoline and a lack of new automobiles the impression might be created that war is working a hardship. The housewife, unable to purchase a new stove or washing machine, could have a feeling she is paying a considerable price to help win the war.

In many other respects, there has been no curtailment of the comforts and necessities of healthful living. There has been plenty of food, in many cases a surplus. And there has been more money with which to purchase it. Because farmers worked longer hours and enjoyed favorable weather, the American people have had no call to tighten their belts.

As for wages, with the exception of the white collar group whose wages were frozen, workers are making more money than ever before in history. Factory employees are receiving at least 50 per cent more in their envelopes than they did in 1939. Living costs have risen, but not that much.

Washington at a Glance

By JACK STINNETT

WASHINGTON—If you are a night-clubber, a sympathetic pal of any one who is, or one who runs one, don't go anticipating any relief from that 30 percent federal tax on the after-dark fun bills.

Capitol Hill observers are almost unanimous in predicting that the night club tax hasn't a chance of being rescinded, in spite of complaints from some Congressmen representing night club areas that their constituents are being driven out of business.

Just what, in dollars and cents, will accrue to the war kitty from this tax can't be determined yet. It isn't likely it will bear much of the burden. Such special taxes often assume terrific proportions in the wells of the House and Senate, but actually produce little in overall revenue.

The best weapon that the anti-night club taxers have been able to find yet is that it will throw approximately 15,000 entertainers out of work, since after-dark entrepreneurs no longer will be able to maintain elaborate floor shows. Most entertainers are 4-Fers, or

under-age or over-age. No individual who has made even a superficial survey would underestimate the contribution of the entertainment industry to the war effort. There are exceptions—as in the last war—but for the most part the entertainers have come through almost to the point of exhaustion.

They have played the jungles of Guadalcanal and the central Pacific; the sands of North Africa; the frozen tundras of Iceland and the fog-ridden Aleutians.

It's conceded that the night clubs and cabarets are the best sources of supply for the movies, the stage and radio.

But the general attitude on the Hill is: Isn't it just too bad if these more or less non-essential workers have to seek other means of employment.

Rep. Charles E. McKenzie, Louisiana overseas veteran of World War I, pretty much summed it up when he said: "There's no reason for these people to worry about jobs. The farmers in my district can use every one of them; so can

the sawmills and the pulp mills — essential industries every one."

To many Jack Bennys, Bob Hopes, and this war's "sweethearts of the A. E. F." on a dozen fronts, that may seem harsh criticism, but that generally is the way Congress feels about easing the night club tax.

The feeling here is that Congress hasn't been blind to the morale value of entertainment and sports. As a body, it has kept hands off, allowing war agencies to determine to what extent entertainment and sports should be allowed to operate.

On the other hand, there's much sentiment among the lawmakers that so-called "luxury" entertainment should be taxed to the maximum and receive no manpower concessions whatever. The idea primarily is to divert surplus war earnings into savings and war finance channels. In that respect, the moralists and the tough-minded anti-inflationists see eye to eye.

Rep. Charles E. McKenzie, Louisiana overseas veteran of World War I, pretty much summed it up when he said: "There's no reason for these people to worry about jobs. The farmers in my district can use every one of them; so can

LAFF-A-DAY**This Shows Stuff of Which Heroes Made****By FRANKLIN F. BANKER**

A. U. S. BOMBER BASE IN ENGLAND—(P)—The bodies of a heroic pilot and co-pilot who sacrificed their lives so their companions might bail out from an exploding and blazing "Liberator" bomber probably are buried with its wreckage in a bottomless marsh along the English coast, fellow officers said today.

Although flames swept into their compartment, the two pilots probably urged the great bomber to greater speed so the men could bail out over land. If they had dropped into the channel in the dark they would have had little chance of being found.

The two who went down with the plane were Pilot James S. Munsey, of W. Main Road, Norman, Okla., a former player of Oklahoma football, and co-pilot Lt. Robert O. Crall, route six, Mansfield, O. They have been recommended for posthumous decorations.

Racing in at 250 miles an hour

in a desperate attempt to reach

land, the bullet-riddled "Cee Gee Second" plunged so deep into

quicksand in the marsh that only

her tail section, which broke off

was recovered.

There was one chance in a million that the pilot and co-pilot might have bailed out and drifted out to sea, but it is believed they went into the quicksand with the bomber. No hope was held that their bodies or the remainder of the plane ever will be found.

In all, five men died and five survived the dramatic flight which ranks with the epics of the Eighth U. S. Airforce in the European theater.

While returning from a raid, several Liberators were attacked by German fighters only 15 miles off the English coast. Twenty millimeter cannon fire raked "Cee Gee Second" from nose to stern. Helfand, burned on his head and

left arm, landed 50 feet offshore and was rescued by British soldiers in a boat. Conway hit the water nearby but never was found. Two others who dived from the bomb bay landed safely on shore.

"Those of us who got out alive feel we owe them an awful lot," said the bandaged navigator in base hospital. "It's funny how heroism comes out in a few seconds—the pilot and co-pilot in their blazing cockpit, Brown and McClure helping McKinney in the waist and Conway jumping on the bomb bay doors."

Pilot Munsey had named "Cee Gee Second" for his young daughter—whose initials are C. G.

Better Victory Gardens**Green Foods for Victory Garden**By DEAN HALLIDAY
Released by Central Press Association

SPINACH, the better known of the "greens," grows best in spring and autumn. It thrives under cool, moist conditions but quickly goes to seed in dry, hot weather. Spinach is very sensitive to acid soil and should be grown only on nearly neutral soil. If in doubt about the condition of the soil, the Victory gardener may wish to experiment with the Tampala, which is also shown in the Garden-Graph.

Bloomdale Long-Standing, Nobe and Viking are outstanding varieties of spinach. The latter variety is easily washed clean of sand or grit.

As illustrated in the accompanying Garden-Graph, King of

Denmark is a worthwhile variety, since it is slower than most to go to seed. This variety forms quite large tufts or rosettes which are compact and low growing. The numerous leaves are extra large and a glossy, dark green in color.

The Victory gardener may also wish to experiment with the Tampala, which is also shown in the Garden-Graph. It is claimed that Tampala grows well in hot weather and will keep on producing all through the summer. The leaves are cooked in the same manner as spinach, except that it only requires some five minutes of cooking. Tender leaves from this plant can be finely cut or shredded for salad purposes.

Moellencamp-Embrey Vows Exchanged Saturday, May 13 At Post Chapel, in Virginia

Ceremony Performed at 3:30 P. M. by the Rev. Father Cadden, Post Chaplain At Norfolk Navy Yards, Va.

A quiet ceremony performed in the Post Chapel, Norfolk Navy Yards, in Portsmouth, Va., united in marriage Betty Jane Moellencamp, yeoman second class, WAVES, daughter of Mrs. R. M. Winegardner, of Washington C. H., Ohio, to Lt. Thomas C. Embrey, U. S. M. C. R., son of Mr. and Mrs. Thomas R. Embrey, of Washington, D. C.

The double ring ceremony was performed by the Rev. Father Cadden, chaplain of that post Saturday afternoon, May thirteenth, at three o'clock. Attending the couple as matron of honor and best man was Ensign and Mrs. Roger Hoy, of Washington D. C.

For her marriage the personable young bride wore a poudre blue princess style floor length frock of lace and marquisette. With this she combined a blue rose hat with white lace trim and a brief blue veil. She carried a white prayer book topped with a pale pink orchid from which fell streamers of baby's breath.

The matron of honor were a pale pink silk jersey floor length frock, with which she wore a large blue picture hat and had matching blue accessories. She wore a shoulder corsage of gardenias.

The bridegroom and best man wore the dress white of their respective branches of the service.

Immediately following the ceremony, a reception was held at the Officer's Club at the Norfolk Navy Yards, and attending were seventy-five officers and wives along with the out-of-town guests.

The bride is a graduate of St. Mary's of the Spring College, Columbus, with the class of 1942 and entered the WAVES in February of 1943. She is now stationed in Washington D. C.

The bridegroom was a pre-law student at George Washington University, Washington D. C., prior to entering the Marine Corps.

Mrs. W. F. Wilson Guest of Honor At Dinner Here

Mrs. Willard F. Wilson was the guest of honor at a dinner party entertained by her daughter, Joan, at their home on Clinton Avenue Wednesday evening, celebrating her natal anniversary.

The hostess had a crystal wargarden arrangement of pansies as the centerpiece of the attractively-appointed dining room table. A birthday cake topped with miniature candles was presented to Mrs. Wilson along with many other handsome gifts. Her response was most gracious.

The remainder of the evening following the delightful dinner hour, was spent in informal visiting and home movies were shown to the interested guests.

Those present with the guest of honor and hostess were Mr. Wilson, Mr. and Mrs. Billy Wilson, daughters, Jowanda and Julian, Miss Helen Chitty and Miss Jane Fuels.

Latin Club Meets for Last Time This Year

Members of the Latin Club of Washington C. H. High School assembled in the Little Theater for the final meeting of the year, Wednesday, after school and the president, Marilyn Ashley, presided during the brief session.

After the reading of the minutes by Jim Twining, there was a discussion of some of the common Latin maxims often used today. Then a contest was conducted among the members. The story included names of Roman heroes and the gods of mythology.

After group singing, refreshments were served by the officers, Nancy Devins and Marilyn Ashley. The club advisor is Miss Kathleen Davis.

Mrs. W. B. Hershey has returned from Chillicothe, where she spent the past week.

Missionary Meet Held at Church

The Missionary Society of the First Presbyterian Church held its regular meeting at the church Wednesday with the president, Mrs. Harry Springer in charge.

Mrs. Springer opened the meeting with reading the quotation by Binns—"March beside me, O my brother, all for one and one for all." She then read a story about Thomas Edison in which he said, "I believe for every problem there is a solution if we persevere in our attempt to find one."

A hymn, "Blessed Assurance," was sung with Mrs. B. F. Davis at the piano.

Mrs. Springer then called upon the secretary, Miss May Duffee, for the minutes of the last meeting. The treasurer, Mrs. W. B. Hershey, gave her report and Mrs. Springer gave the offertory prayer. Mrs. C. H. Thorman gave a report on membership and Mrs. Ida Snider reported forty-one calls made by the visiting committee. Two members, Mrs. Valentine Hoppes and Mrs. Harold Callender, suffered bereavement in the past two weeks and sympathy was extended to them.

Mrs. Springer spoke of the tea given by the Margaret Walker class on April 30th at which the Missionary Society members were invited guests and expressed the appreciation and pleasure of the members for the courtesy and entertainment.

There was then responsive reading from the Hymnal.

The subjects for study were "Mexico" and "The West Indies." Mrs. Regina Staibus, substituting for Mrs. Harold Callender, read several interesting articles on "Our Islands in War Time." She stated that people of all islands have suffered during this war as most of them live on imported goods, which they, of course, are not now able to obtain.

Mrs. C. H. Thorman had charge of the "Year Book of Prayer" and offered prayer for the missionaries here and in far away lands.

A very lovely solo was given by Miss Lucille Bates with Mrs. Musser at the piano.

Miss May Duffee then read a most interesting letter received from Miss Sara Cochran from Sunset Gap School, Newport, Tenn. It told of Christmas cheer distributed to the mountain people.

The meeting was closed with all giving the benediction. Pleasing refreshments were served in the dining room. A gorgeous bouquet centered the dining table. Twenty-five members were present.

May hostesses were Mrs. S. A. Dewey, Mrs. Rollo Marchant, Mrs. W. O. Beatty, Mrs. H. O. Shankle, Mrs. Ida Snider, Mrs. E. N. Hollo-

WELFARE EMPLOYES TO GET PAY BOOST

Use of \$400,000 from Relief Fund Approved

COLUMBUS, May 18.—(AP)—The state board of control today approved a welfare department request for use of \$400,000 in poor relief funds to increase salaries of employees in state hospitals and correctional and feeble minded institutions, a welfare official announced.

John C. Waidner, chief of the welfare department's division of business administration, said the

majority of increases would be effective from May 16, and the rest on June 1. He estimated individual increases at from 10 to 15 percent and said they would boost department payrolls \$50,000 to \$60,000 monthly.

'WELCOME HOME' IS PLANNED FOR EAGLE VETERANS

Committee of Volunteers To Offer To Help Fighting Men Back To Civilian Life

Fayette Aerie of Eagles today had the welcome mat all spic and span for men in the country's armed forces as a "Welcome Home" committee set up by C. F. Wible, the aerie president, at a special informal meeting swung into action without further ceremony.

J. Kent Hopkins headed the reception committee of Wert Shoop, J. Roush Burton, Ellet Kaufman, R. Burris Tharp and Henton E. Cook, all of whom volunteered for membership. Most of the committee are veterans of the first World War, acting secretary Robert Bailey said, and appreciate what a warm welcome home to a returning serviceman can mean, especially when so many of his old friends are away with the armed forces. Bailey declared: "The offer of these men, all busy with their own affairs, to welcome the boys home speaks for their character and unselfish devotion of those who are supporting this war at home and Fayette Aerie is proud of the privilege to help serve in this way."

The purpose of the committee, Bailey said, is to establish a roster of all returned servicemen who are members of the aerie and to register each one as he returns home.

Plans also call for "keeping the men pleasantly occupied that reminders of the war will be replaced with a sincere and true friendship."

A clearing house is to be set up for those returning Eagles seeking employment, he said. Meanwhile, the facilities of the aerie are to be put at their disposal for reestablishing their social contacts.

The Eagle committee, it was said, will cooperate with other civic and fraternal organizations which feel a moral obligation to help rehabilitate the veterans of this community. "Every measure of aid possible" will be offered to the veterans who have suffered either physically or mentally in the war, Bailey declared.

OF HUMAN INTEREST At The War Front

AN AMERICAN FIGHTER BASE IN ENGLAND, May 18—(AP)—Get that paint brush out again, neighbor, Lt. Robert Welden has downed another German and has become an ace.

When Lt. Welden went off to war, his neighbor, Maynard Stapleton of Lewistown, Mont., said he'd paint a blue stripe around his house every time Welden shot down a German. They shook hands on it.

Welden, a Mustang pilot in the Ninth Airforce, escorted a mission of heavy bombers to Germany recently and they ran into a pack of German fighters. Welden bagged an ME-109 during the ensuing dogfights, bringing his total to five and three-quarter kills.

"I hope I can keep going until these blue stripes reach Maynard's roof," he said today. "If he can find the paint I'll find the Jerries."

WITH THE CHINESE EXPEDITIONARY FORCE ON THE SALWEEN RIVER FRONT, China, May 15—(Delayed)—(AP)—Two American officers, a sergeant and this correspondent watched the Chinese wrest a hill feature from the Japanese yesterday in their new offen-

sive aimed through the Mamen Pass, northeast of the Japanese base of Tengchung.

The Chinese took the village of Hungmaoshu in the gorge-like Salween Valley today.

Lt. Col. John Nance of Portland, Ore., "Y Force" Ordnance Supply officer; Second Lieutenant Raymond L. Pittman, Fayetteville, N. C.; Sgt. Albert

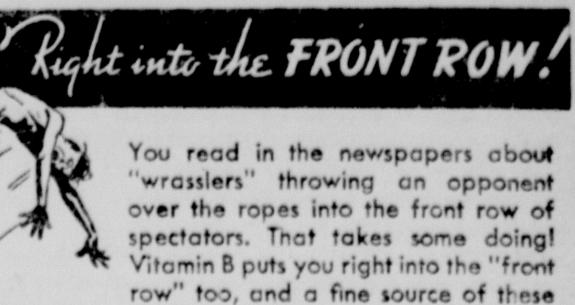

F. Chambers, Martins Ferry, O., and I watched artillery shelling a height northeast of Hunmaoshu.

It was a feature from which the Japanese had driven the Chinese, but the artillery enabled the attackers to regain the positions.

PLANS ARE MADE FOR DANCE AT ARMORY FRIDAY

Reorganized Guard Company To Put on Entertainment To Raise Funds

A fifty-fifty dance—half old-fashioned square dancing and half modern dancing—in the Armory Friday night will be the first big venture of Company D, of the second infantry of the Ohio State Guard, since its reorganization about a month ago.

While the dancing to the music of Paul Angle and His Swingers may attract more immediate attention and provide more relaxation for men and women, young and old, under the strain of high-gearred war work, the rejuvenation of spirit of the company carries an underlying current of deeper interest in the event. Dancing is to start at 9 P.M. and continue until 1 A.M.

Proceeds from the affair are to go into a fund for buying athletic equipment for the company.

If the dance is a success, from both the entertainment and financial point of view, it was said plans would be made not only to hold others but also to arrange a regular long-time program which would include other features.

Admission prices have been set at 60 cents per person and \$1.10 per couple. Lieut. John Thomas is chairman of the dance committee and Capt. Dreschaw and Pvt. Nichols are in charge of the tickets. It was said that any one who wanted tickets for advance sales could get them from any member of the committee.

If public support warrants the hoped-for expansion of the entertainment program, it was said the proceeds would go toward building up the company.

The first commissioned naval officer in the United States was in the Revenue Cutter service, forerunner of the present Coast Guard.

With a Buckeye In Congress...

By CLARENCE J. BROWN
Member of Congress, 7th Ohio District

The Ohio primaries are over with every sitting member of Congress from the Buckeye state being renominated, either without opposition or with heavy majorities. Thus far, with more than one-half of the state primaries having already been held, only one sitting member of the House who was a candidate for reelection has failed of renomination.

House action of late last week in passing legislation to increase the national debt limit to \$240,000,000 is expected to be followed soon by similar action in the Senate. Originally the Administration bill provided for increasing the limitation to \$260,000,000,000, but upon insistence of the Republicans in the Ways and Means Committee, the lower figure was finally fixed. Twelve years ago, when Mr. Roosevelt was first a candidate for president, the national debt was less than \$25,000,000,000, and he was campaigning on an economy platform, fifty billion dollars was fixed as the highest possible amount of national debt the United States could carry with safety. Now it has already crossed the two hundred billion dollar mark, of which amount approximately one hundred and twenty-five billion is attributable to war expenditures, with the balance being due to deficit financing of peace-time or civil government activities.

The War Department has just announced, as of January 1st last, 414,000 Ohio men and 5,293 Ohio women were serving in the army of the United States. Between November 1st, 1940, and December 31, 1943, 460,300 men and 6,987 women from the Buckeye state entered the army. In the same period of time 59,880 men and 1,725 women were separated from army service for one reason or another. These figures, of course, do not include those Ohioans who were already in the army prior to November 1st, 1940; or the thousands serving in the Navy, Marine Corps, Coast Guard or Merchant Marine.

The president is back in town after a month's rest in the South, with administration spokesmen busily issuing statements telling how fine he looks, that he has completely recovered his health, etc. However, many of the reporters who attended his first press conference often bring happy relief.

Many suffers kidney trouble, backache quickly, once they discover that the cause of their trouble may be tired kidneys. The kidneys are Nature's chief of tasks, for they remove wastes of food. They help most people pass about 3 pints a day.

When disorder of kidney function permits noxious matter to remain in your blood, it may cause pain, loss of appetite, rheumatic pains, leg pains, loss of pep and energy, fitting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or severe passage with smearing and burning with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pill, the most successful remedy over 40 years. They give happy relief and will keep 15 miles of kidney tubes flushed out poisonous waste from your blood. Get Doan's Pill.

press and radio had not given the people a true statement of facts regarding the case. This charge was immediately challenged by reporters present. In the meantime two congressional investigations of the whole Montgomery-Ward matter are getting underway; for, despite the president's contention and the court's decision, the issues raised in this historic case have not been settled insofar as the Congress and the people of the United States are concerned. There is a growing demand that some determination be made as quickly as possible as to just what, if any, statutory or constitutional authority the president may have, in time of war, to seize private property or otherwise enforce his orders on private citizens through the use of military force and without resorting to court proceedings.

Last Friday the national headquarters of Selective Service issued a new regulation clarifying the draft status of men between 18 and 38, regardless of marital status, are to be classified as 1-A and subject to early induction with the exception of a few technically trained specialists engaged in vital war work, whose deferment is approved by the State Selective Service headquarters, or those essential to agricultural pro-

duction. Men between 26 and 30, whose individual employment is found to be essential to the war effort, will be deferred for the present and are not expected to face induction for at least six months, unless war casualties are unexpectedly heavy. Men between 30 and 38 employed in any essential industry or occupation, regardless of whether his individual work is essential or not, will be deferred for the balance of this year, at least, and probably for the duration. Local draft boards have been instructed to reclassify men now in 1-A according to the provisions of the new order.

A Local Lady Spills Up Acid Liquids for Hours After Eating

For hours after every meal, a Washington C. H. lady used to spit up a strong, aciduous liquid mixed with pieces of half-digested food. She says it was awful. At times she would nearly strangle. She had stomach bloating, daily headaches and constant irregular bowel action. Today, this lady eats her meals and enjoys them. And she says the change is due to taking ERB-HELP. Her food agrees with her. No gas, bloating or splitting up after eating. She is also free of headaches now, and bowel movements are regular, thanks to this Remarkable New Compound.

ERB-HELP contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get ERB-HELP. Finley's Drug Store.

Reds Beat Blue Jays, 6 to 5, With Bucky as Pinch Hitter

By JACK HAND

(By the Associated Press)

It took Orval Grove a year to get even but the Chicago Sox righthander today has squared his debt with the New York Yankees, who broke his nine-game win streak and ruined his no-hit bid in 1943.

Grove became the first pitcher to shut out the New Yorkers when he blanketed them 4-0 with five hits yesterday.

Last July, Grove had a no-hitter with two out in the ninth when Joe Gordon's double spoiled it, and a few weeks later the world champs ruined his attempt for a tenth straight victory.

Washington muffed a chance to go into a virtual tie for the American lead by bowing before Cleveland Vern Kennedy's four-hit effort, 4-2. Jeff Heath with a double and two singles, and Oris Hockett with a triple and a pair of singles, sent Roger Wolff down for his first loss.

Buddy Hall's boot with the bases loaded cost Philadelphia's Athletics a 2-1 decision to Detroit much to the dismay of 28,535 Quaker City fans who were trying to root the A's home for their seventh straight.

-Spying— On Sports

By Hugh Fullerton, Jr.

NEW YORK, May 18.—(AP)—

Overseas sports roundup:

Persian Gulf Command

Sgt. Allen Lacombe, the No. 1 boxing promoter from Cairo to Teheran, types this report . . . "Boxing in the P. G. C. has been pretty good in the last month or so. I took 22 boys on tour of the command. The camps we appeared in did not have boxing teams before we went there, but as soon as we left all the camps started to organize teams . . . There is only one place that we can fight during the summer and that is Teheran. It is nice and cool up in the mountains where the camps are so once a month I have to put on 12 fights up there, matching boys from all over the command. The only rough part about it is that we fellows stationed down in the southern part of Iran have to travel almost 850 miles to fight. The change of climate is murder; you can hardly breathe when you get up in them mountains. And you have to travel fourth class or ride in box cars all the way, eating C rations, but the boys do not seem to mind it very much. In fact they raise hell if you cannot get them a match every time you go up there. When this was over and all the boys turn pro and we have to ride the rods from town to town, up and down the kerosene circuit, we will be used to it."

England

From a Canadian newspaper comes information that a Canadian Army cricket team will play an American team on the famed cricket grounds at Lords, July 20 . . . the match already has led to speculation in London papers as to whether the game will help Canadians and Americans forget the more raucous game of baseball when they return home . . . from this distance, it seems more likely that staid Londoners never will forget the Canadian-American game.

North Africa

Chief Warrant Officer Frank Hartley reports as follows to his old paper, the Louisville Times, on racing in North Africa: "It's confusing enough to buy a ticket which reads 20 francs, but which sells for 60 francs, or \$1.20. It's even worse inside . . . if you're lucky, you can find through the use of sign language and GI French that favorites aren't posted and there aren't, as a result, any opening odds . . . so long as the race is going on, you can imagine that you're back in the states, because usually the races are good and it's just as difficult to see the backstretch as it is at home."

CONNIE KNOWS HIS BALL PLAYERS; 'JITTERY JOE' ONLY ONE EXAMPLE

By BOB HOFMAN

PHILADELPHIA, May 18.—(AP)—Jonas Arthur "Jittery" Joe Berry walked into the Philadelphia Athletics' training camp—a complete stranger—one day this spring when the temperature was in the 30s.

He threw a couple of pitches and then cut loose with a curve ball.

"There's my relief pitcher," said Connie Mack.

"A good one might mean the difference between the cellar and first division," one of the coaches remarked.

Today, the Athletics are up in the first division, and the league pitching averages show—"Berry" won 4, lost 1."

But the records don't tell the whole story. In his four victories Berry has pitched hitless ball—eight innings of it. In a game

he saved for Don Black he gave the Yanks one hit in two innings. He looked bad just once, in his only loss, when he gave the Senators six in two.

"Jittery Joe," a resident of Huntsville, Ark., who confessed to be 38, has been knocking around the minors for 17 years. He had a trial with the Chicago Cubs after the 1942 season, when he won

18 games for Tulsa and had an earned run average of 1.83. But he was sent to Milwaukee, where he won 18 last year. The A's bought him during the winter.

Berry throws a little of everything and not much of anything, with an in-between speed that apparently baffles big league batters because they haven't seen anything like it.

Rye slumped to a new low for the year at the start, but then reversed its trend and returned to around the preceding session's close in sympathy with the strength of wheat. Trading was heavy and the market appeared

firm.

Oats and barley were firm.

May wheat, oats and barley were unchanged. Active wheat futures closed 1 1/4 to 1 1/2 higher. July \$1.665, active oats unchanged to 1 1/2 higher. July \$1.215. Rye was unchanged to 1 1/2 higher. May \$1.215.

1,500 Axis troops in violent fighting that still continues in eastern Bosnia, and in Dalmatia have driven the enemy from the town of Kistanje, Marshal Josip Broz (Tito) announced.

The Reds tied it up in the fifth

on Max Marshall's triple, two singles, a walk and an error, and went ahead in the seventh. The Jays knotted the count in the seventh on Malloy's walk with the bases full.

Spitfires lost the last two games with master-minding, and Manoah McKechnie changed his master-mind and Bucky batted for Tony. The double scored Dain Clay, who was running for Chick Aleno, who had done nothing more than force Eddie Miller, who had singled.

The Blue Jays got off to a 3-0

14 SENIORS IN BLOOMINGBURG COMMENCEMENT

American Flag Drapes Chair
of One Member of the
Class in Service

Fourteen seniors were awarded diplomas in the annual commencement exercises of the Bloomingburg High School, held in the auditorium of the school building, Wednesday night, and attended by a capacity audience of relatives and friends.

The stage was decorated with baskets of beautiful peonies, iris, honeysuckle and snowballs, and the graduates wore gray caps and gowns, with the girls carrying bouquets of roses.

The graduates included Gretchen Baughn, Lucille Boldman, Anna Colaw, Robert Daniel, Ruby Edwards, Forrest Harper, Lois Harris, Richard Kelley, Robert Plummer, Esther Rapp, Mildred Simerl, Elaine Tempkin, Norma Weaver and Mildred Young.

Richard Kelley being in the U. S. military service, his chair was draped with the American flag, and his diploma placed upon the flag when the diplomas were presented by Omar Rapp, president of the board of education.

Mildred Simerl was president of the class, Anna Colaw, secretary, and Esther Rapp, treasurer. The class motto was "Learning to Live by Living to Learn," the colors, rose and silver and the flower, Briar Cliff roses.

The 22-piece high school band under direction of Mrs. Ellen Pensyl, played the overture "Bright Star" and march, "Courage," in opening the program, and the processional, "Priest's March," was played by Raymond Scott with Mrs. Harold Pope at the piano.

After the band played and the congregation joined in singing the "Star Spangled Banner" invocation was given by Rev. John Glenn, pastor of the Presbyterian Church, who also pronounced the benediction at the close of the exercises.

Mary Slager, John Parrett and Garnet Pollard, clarinets, played "Dance of the Mirlitons" from the "Nutcracker Suite," and Calvin Cornell sang "American Prayer" with Mrs. Pensyl at the piano.

Dr. William L. Young, vice-president of Capital University, Columbus, gave the class address, speaking on the subject "New Horizons," and proved a fluent, interesting speaker, his address being one of the most outstanding delivered at the Bloomingburg commencement exercises in recent years.

Dr. Young told the graduates that they are graduating at a time when their opportunities are greater than those of any other class, and he stressed the value of higher education in helping meet and solve the great problems which will confront them and the nation in the years to come.

Dr. Young used a number of appropriate poems in his address, and included much material of a humorous character.

Supt. G. H. Biddle made the scholarship awards, first going to the class president, Mildred Simerl, who was highest in her class as well as highest girl in the State tests, and third highest in Fayette County in the same tests. A scholarship in Capital University was one of the awards.

Ruby Edwards was second in class honors, and won fifth place

SALAD DEMONSTRATION AT STAUNTON 4-H CLUB

The Mixing Bowl 4-H Club of Staunton met at the home of Hannah Salyer in Staunton for the regular meeting with the president, Dixie DeWeese, presiding.

After the meeting was opened with the club pledge, the roll call was answered by the members who named good health habits.

A demonstration of salad plating was given by Betty Ford, a sandwich by Dixie DeWeese and a beverage by Ruth Bandy.

Refreshments were then served and the meeting adjourned until May 31, when they are to meet at the home of Dixie DeWeese at 2 P.M.

PERCOLATOR CAUSES FIRE ALARM THURSDAY

Firemen were called to the Joe Fortier home in connection with the Washington Avenue Grocery, at 11:30 A. M. Thursday, when dense smoke was seen pouring from the kitchen.

Arriving, the firemen found an electric percolator had burned dry. No damage.

YOUNG PEOPLES RALLY AT WHITE OAK CHURCH

4 SENIOR GIRLS GRADUATED AT MADISON MILLS

Commencement Address on "Efficiency" Given by Dale Stump

Four seniors of Madison Mills High School have received their diplomas and are today looking toward the future after commencement exercises Wednesday evening in the high school auditorium at 8 P.M.

A saxophone solo by Joe Cuilen opened the evening's program. The invocation was given by Rev. H. George Robertson, pastor of the Christian Church in Mt. Sterling and a member of the high school faculty. The salutatory address was given by Eleanor Jean Hoppes and the valedictory by Gladys Gibeaut.

Miss Laura Schadel, of this city, sang "Memories."

Dale Stump, Columbus attorney and member of the Industrial Commission of Ohio, gave the commencement address on "Efficiency." He told the audience and graduating seniors many interesting and humorous situations where efficiency was involved.

The four seniors graduated last night were Glenyce Ellen Gibeaut, Eleanor Jane Hopkins, Betty Jane Sherman and Edith Lois Schwaiger. The presentation of diplomas was made by Supt. Mervin Britton who made a few remarks to the graduates.

Glenyce Gibeaut was awarded a scholarship to Wilmington College, by Supt. Britton and she responded with a few remarks regarding her plan of study, which will be pre-nursing subjects. Miss Gibeaut was awarded this scholarship on the basis of being the outstanding student at the high school this year.

A trombone solo by John Craig preceded the benediction by Rev. John Robertson.

Principal Robert Creamer of the grade school presented the eighth grade awards to the thirteen pupils who were promoted into high school. They were Charles Binns, Robert Bobo, Myrtle Bowshier, Clyde Case, Norma Jean Collins, Elmer Eugene Gire, Elmer Harolds, Jr., Wilma Ann Melvin, James Pollock, Mary Sword, Annabelle Webb, Doris Jean White and Joan Wilson.

HEAVY RAINFALL OVER AREA DURING NIGHT

Heavy thundershows occurred over a large part of Fayette County during Wednesday night and in this city .51 of an inch of rain fell, most of it after midnight.

The series of heavy rains during the night and at other times this week have halted most of the field work in the county.

Florence was called the "cradle of the Renaissance."

Dr. Young used a number of appropriate poems in his address, and included much material of a humorous character.

Supt. G. H. Biddle made the scholarship awards, first going to the class president, Mildred Simerl, who was highest in her class as well as highest girl in the State tests, and third highest in Fayette County in the same tests. A scholarship in Capital University was one of the awards.

Ruby Edwards was second in class honors, and won fifth place

WILL SELL BANK BUILDING HERE ON JUNE FIRST

Court Order Is Issued in Bankruptcy of Civic Loan Company

Under an order issued in federal court in the bankruptcy case of the Civic Loan Co., owner of the former Peoples and Drovers' Bank building on Court Street, the building will be offered for sale on the premises at 10 A.M. June first.

The sale will be conducted under the direction of D. R. Kincaid, trustee in bankruptcy of the Civic Loan Co., and the highest bidder is expected to pay \$500 down and the remainder when the deed is delivered.

Sale of the building follows dissolution of the Civic Loan Co., which purchased the building and had its offices in the structure for two or three years before financial difficulties caused it to be thrown into the courts.

The building is a two story

structure with basement under the entire building, the two storm sections extending back about 80 feet and the remainder being built almost to the alley.

It has a heavy stone front with small windows, and was the scene of one of the most daring and largest bank robberies ever staged in Ohio, when three or four men entered the place shortly after the Peoples and Drovers' Bank had opened one morning and obtained \$25,000 in currency and securities.

It was the result of this robbery that caused the bank to be the first to collapse in Fayette County during the panic.
